

## **STUDENT's Challenges**

STUDENT cannot move about independently

- ... move his body into different positions independently
- ... feed himself with utensils
- ... feed himself foods that have not been cut up for him
- ... take a bite of a cracker and continue to hold the cracker in his hand
- ... drink from a cup, bottle, or straw independently
- ... move a blanket off his body
- ... listen to an audio book through headphones
- ... clearly indicate his needs
- ... dress himself
- ... undress himself
- ... put on or take off his shoes
- ... toilet himself
- ... wash hands independently
- ... use both hands to accomplish most tasks
- ... touch soft, sticky, or amorphous objects
- ... stack blocks
- ... follow two-step directions
- ... take turns
- ... transition smoothly from one activity to the next especially if he'll be changing care givers
